TRAINING & DEMO GUIDE

ANI FAMS

Facilities & Administrative Management System
Stakeholder Walkthrough & Capstone Demo Script

> **Purpose:** One platform for facilities booking, visitor management, documents, records retention, legal cases, and contracts — with ARNEL AI assistance and full audit accountability.

Organization: Archon Nell Incorporated
Version: Defense Ready v1.0
Document date: September 2026

Table of Contents

1. System Overview
2. Roles & Demo Accounts
3. Login & Security
4. Executive Dashboard
5. Facilities Reservation
6. Visitor Management
7. Document Management
8. Records Retention & Compliance
9. Legal Management
10. Contract Management
11. Cross-Cutting Features
12. Administration
13. Recommended Demo Order
14. Defense Panel Talking Points
15. Quick Reference — Who Clicks What?

1. System Overview

FAMS replaces scattered emails, spreadsheets, and paper logs with one secure system for HQ, plant, warehouse, and field operations.

Main modules (sidebar):

- Dashboard
- Reservations
- Visitors
- Documents
- Records (Retention)
- Legal Cases
- Contracts
- Administration — User Management, Roles & Permissions, Audit Log (Admin only)

> **Key messages for stakeholders:** Role-based access controls what each user sees. Every important action is logged. ARNEL AI assists with analysis — it does not auto-approve decisions.

2. Roles & Demo Accounts

Role	Demo Email	Typical User
Administrator	admin@facilitiesadmin.local	IT / System Admin
Staff	staff@facilitiesadmin.local	Facilities, Admin, Compliance
Employee	employee@facilitiesadmin.local	Department Staff

Password (all demo accounts): Password123!

Role	Typical Permissions
Employee	Request reservations, view own records, pre-register visitors
Staff	Approve reservations, check in visitors, manage documents and retention
Admin	Full access plus users, roles, and audit logs

3. Login & Security

Step-by-step: First Login

1. Open the system URL (local or deployed instance).
2. Enter email and password.
3. If enabled, complete 2FA or email OTP verification.
4. Land on the Dashboard.

Security Features

- Session timeout after inactivity
- Two-factor authentication (optional, from profile)
- Password reset via email
- Audit Log — who did what, when
- Roles & Permissions — module-level control

Demo tip: Log in as Employee first, then Staff, then Admin to show different menus and action buttons.

4. Executive Dashboard

Path: Sidebar → Dashboard

Widget	Meaning
Pending Reservations	Requests waiting for approval
Visitors On Site	Currently checked in
Documents Uploaded Today	New records added today
Compliance Alerts	Retention/disposal items needing attention
Expiring Contracts	Contracts due within 30 days
Active Legal Cases	Open legal matters

ARNEL AI Brief

- Daily summary of items needing attention
- Quick prompts: today's reservations, expiring contracts, pending documents
- Global ARNEL button (bottom-right) for cross-module questions

5. Facilities Reservation

Path: Sidebar → Reservations

Demo Flow A — Employee Requests a Room

1. Click **New Reservation Request**.
2. Select facility (HQ Conference Room, Blending Plant Bay, Warehouse Staging, etc.).
3. Enter purpose, start/end date and time.
4. Optional: equipment add-ons, recurring booking.
5. Click **Check availability** (ARNEL Smart Check) — shows conflicts and suggested rooms.
6. Submit → status: **Pending**.

Demo Flow B — Staff Approves

1. Log in as Staff.
2. Open Reservations → Awaiting decision section.
3. Click Approve or Reject.
4. On approval: system generates QR check-in code.

Demo Flow C — Day of Event

1. Open reservation → QR badge or check-in field.
2. Scan or enter code → status: **Checked-In**.

3. Advance: In Use → Completed, or mark No Show / Cancelled.

Additional features: Calendar views (Month, Week, Agenda), conflict detection with alternative rooms, maintenance blocks, waitlist, analytics, CSV/PDF export.

```
Pending → Approved → Checked-In → In Use → Completed
         ↘ Rejected / Cancelled / No Show
```

6. Visitor Management

Path: Sidebar → Visitors

Demo Flow A — Pre-register

1. Click **Pre-Register Visitor**.
2. Enter visitor name, company, host employee, scheduled time, purpose.
3. Optional: photo, visit areas.
4. Submit → status: **Pending Approval**.

Demo Flow B — Host Approves

1. Host or staff clicks Approve.
2. Status becomes **Approved**.

Demo Flow C — Check-in at Lobby

1. Security/reception clicks Check In.
2. System issues digital badge (QR, photo, host, expiration).
3. Host receives arrival notification.
4. On departure: Check Out.

Security features: Watchlist alerts, overstay detection, emergency on-site roster, NDA signature when required.

```
Registered → Approved → Checked-In → Checked-Out → Completed
           ↘ Denied (watchlist)
```

7. Document Management

Path: Sidebar → Documents

Demo Flow A — Upload

1. Click **Upload Document**.
2. Enter title, category, confidentiality level.
3. Attach file and submit.
4. ARNEL auto-classifies and summarizes the document.

ARNEL Document Intelligence

- AI classification, summary, and tags
- Re-analyze — refresh AI analysis
- Correct classification — feedback to improve accuracy

Actions from Document Detail

Action	Purpose
Permissions	Control who can view or edit
Request Signature	E-signature workflow
Upload New Version	Version control
Preview / Open File	View current file
Download	Secure download with integrity check

Also includes: Version history, OCR for scanned files, full-text search, activity log (uploaded, viewed, downloaded, edited).

8. Records Retention & Compliance

Path: Sidebar → Records

1. **Define retention policy** — name, category, retention period, disposal action.
2. **Assign policy to document** — link document, set start date.
3. **Monitor compliance dashboard** — Compliant / Expiring Soon / Overdue.
4. **Compliance calendar** — upcoming disposals.
5. **Legal holds** — block disposal when a case is active.
6. **Disposal workflow** — see lifecycle below.
7. **Automatic reminders** at 90, 60, 30 days and on expiration.

```
Pending Disposal → Compliance Review → Legal Approval → Archived
```

9. Legal Management

Path: Sidebar → Legal Cases

Demo Flow — File and Manage a Case

1. Click **File Legal Case** — enter title, type, risk level, counsel, opposing party, budget.
2. Case number generated (e.g. LC-2026-xxxx).
3. From case detail: add parties, link documents, milestones, deadlines.
4. Log expenses, record outcomes, run conflict scan.
5. Print or save PDF case report.

ARNEL legal assistant: Case summary, important deadlines, related document suggestions.

```
Open → In Progress → Closed / Won / Lost / Settled
```

10. Contract Management

Path: Sidebar → Contracts

1. Click **New Contract** — title, counterparty, value, dates, type.
2. Save as Draft → submit for review → approval chain → signature → Active.
3. Monitor renewal alerts before expiration.
4. Use AI clause extraction for renewal, termination, and payment terms.

```
Draft → In Review → Pending Signature → Active → Expired / Renewed / Terminated
```

11. Cross-Cutting Features

Notifications

Bell icon in top bar — reservation approved, visitor arrived, compliance alert, contract expiring. Click to jump to the related module.

ARNEL AI Assistant (Global)

1. Click ARNEL button (bottom-right).
2. Ask natural-language questions across modules.
3. Use quick tools: Reserve, Document, Contract, Legal, Records.

Audit Trail

Path: Administration → Audit Log. Filter by module, user, date. Shows login, approve, upload, check-in, dispose, and more.

Exports

Most modules support Export CSV and Export PDF for reporting.

12. Administration (Admin Only)

- **User Management** — add/edit users, assign role and department, activate/deactivate
- **Roles & Permissions** — configure module access per role
- **Sessions** — view active sessions, revoke suspicious logins

13. Recommended Demo Order (45–60 min)

#	Segment	Account	Time
1	Login + Dashboard + ARNEL brief	Admin	5 min
2	Reservation: request → approve → QR check-in	Employee → Staff	10 min
3	Visitor: pre-register → approve → check-in → badge	Staff	8 min
4	Document: upload → ARNEL classify → permissions → version	Staff	10 min
5	Legal case: file → add party/deadline → log expense	Staff	8 min
6	Contract: draft → approval → active → expiry alert	Staff	7 min
7	Retention: policy → assign → compliance alert	Staff	5 min
8	Audit log + roles + wrap-up	Admin	5 min

14. Defense Panel Talking Points

Theme	Highlights
Innovation	ARNEL AI: classification, OCR, summaries, reservation suggestions, contract clauses, compliance checks
Automation	QR check-in, visitor badges, smart notifications, retention reminders, approval workflows
Enterprise readiness	RBAC, 2FA, audit trail, version control, legal holds
Real-world fit	HQ rooms, plant bays, warehouse staging, visitor security, document retention for SOPs and legal records

15. Quick Reference — Who Clicks What?

Task	Who
Request a meeting room	Employee
Approve reservation	Staff
QR check-in reservation	Staff / Requester
Pre-register visitor	Employee / Reception
Approve visitor visit	Host / Staff
Check in visitor	Security / Reception
Upload document	Staff
Set document permissions	Document owner / Admin
Create retention policy	Compliance / Admin
File legal case	Legal / Admin
Log legal expense	Legal staff
Draft contract	Contract owner
Approve contract	Approver in chain
Manage users	Admin
View audit log	Admin / Auditor
